Database Systems, Software Engineering, Object Oriented Programming, Entrepreneurship: Ideation & Prototyping, Web Programming.

WORK EXPERIENCE

PT EQUINOX TEKNOLOGI INDONESIA

Jakarta, Indonesia

Full-stack Web Developer

2025 - Present

- Built responsive, accessible UIs using Next.js, ensuring consistent layout, reusable components, and seamless experiences across mobile and desktop.
- Integrated front-end with CMS and backend platforms such as Shopify, WordPress Bricks, Supabase, and ElysiaJS to deliver dynamic content, authentication flows, and e-commerce functionality.
- Improved performance, UX, and SEO by optimizing page structure, animations, media assets, and accessibility features (ARIA tags, semantic HTML, structured data).
- Collaborated cross-functionally with design, product, and QA teams to revamp core pages, resolve login/payment issues, and align implementation with user experience goals.

PT KALBE FARMA TBK.

Jakarta, Indonesia

Front-end Web Developer Intern

2023 - 2024

- Developed user interfaces utilizing Next JS, Bootstrap, and SCSS to provide interactive and responsive web applications.
- Implemented data integration through REST API to deliver fully functional web applications capable of processing data.
- Programmed automated integration and end-to-end testing utilizing Cypress.
- Developed an independent web application project: an online logbook system that improved the effectiveness and efficiency of internship attendance and payment management by 50%.
